

A Venn diagram with three overlapping ellipses. The top-left ellipse is light blue with a blue border. The top-right ellipse is light pink with a magenta border. The bottom ellipse is light purple with a black border. The blue and pink ellipses overlap, and the purple ellipse overlaps with both. The text 'Eulerian sources' is inside the blue ellipse, 'Lagrangian sources associated to a given χ ' is inside the pink ellipse, and 'Broad sources' is inside the purple ellipse. A small box with a symbol is in the blue ellipse, and a box with '§??' is in the purple ellipse.

§
Eulerian sources

Borel, bounded functions

Lagrangian sources associated to a given χ

§??
Broad sources
